THE STATE OFFICES. The Contest at Hartford-The Sitn

rial matter now stands, a committee o

the house, made up of lawyers and laynen bright, honorable and able, will make full investigation into the returns The committee meets Wednesday, January 14 at 10 a. m. at Hartford. The result of heir investigations will be made known when the house meets January 20. If it appears that Judge Morris has a majority the lawful ballots cast for governor l will be declared elected and every republican in the house will vote in favor of such eclaration. If the contrary shall appear not a republican will vote to seat him. Unquestionably the excitement attending the situation will continue and increase as the investigation proceeds. The committee will sit at Hartford, and possibly at Bridgeport. There will be no star chamber proceedings and no attempt to conceal anything. The republicans prepose to let the full neontide shine upon the re-

urns.
There has been considerable difference of opinion among republican leaders as to what course should be pursued in regard to the candidates below governor.

Judge Lynde Harrison is unqualifiedly
in favor of declaring the democratic candi dates for lieutenant governor, comptroller and possibly treasurer elected, if the ttee do not discover something rad ally different from the present state of

Other republican leaders are that none of the democrats should be seated unless a compromise is made on the question of governor. It is understood that the proposed plan of having the democrats take the oath of office yesterday and make demand on the republican incumbents for possession was given up on the advice of Judge Morris.

The proceedings thus far indicate that the democrats have not acted wisely in their choice of a house leader. Mr. Walker of Hartford is an able man, but he is not as well equipped for the position of leader as is Mr. Hotchkiss of New Haven. Speaker Paige has already demonstrated ability of a high order. No attempts at bulldozing will have any effect upon him. He is the presiding officer of the house and he has ability and sand enough to fill the position. hat none of the democrats should be seat

GOVERNOR BULKELEY DENIES IT. Governor Bulkeley says in denying a re port concerning his position:

You may say that it is without any foundation Whenever the general assembly declares any person governor and he duly qualifies, whether to-day or at any time in the future, I shall at once yield to him the executive office. INVESTIGATING PROHIBITION VOTES. That the special investigating commitee appointed by the house contemplates inquiring mainly, if not wholly, into the rejection of the "for" ballots voted by the prohibitionists, is indicated by the three petitions presented by Representative Tuttle (rep.) of East Haven, who was subsequently appointed on the committee. The petitions were from Waterbury, Strattord and New Britain—that from the latter place being signed by H. N. Lockwood and W. V. Andrews. Accompanying the petitions were affidavits of various persons that they had voted the prohibition

The Hartford Post last night says: The Hartford Post last night says:

Unless the senate recedes from its rash and hasty step, obviously General Merwin (who very likely is, or at least may be, entitled to hold the office of governor) is deprived of all chance of being seated—for the republicans will not adopt any more than they will allow any revolutionary course; and equally obviously Mr. Bulkley who was not a candidate for the office is obliged to hold over for the full term.

The senate must yield somewhat, or the responsibility of a deadlock and all that it implies will lie wholly with itself.

If the democrats desire to assume the role of obstructionists they are welcome to do so, and to all the capital which is to be made out of such a position. The republicans will do business along the established and constitutional lines till such the established and constitutional lines till such time as democratic obstruction prevents further action, then they will "hold the fort" till the obstruction is removed and the reign of law and order is resumed.

The Hon. Luzon B. Morris did not endorse the democratic program to the extent of actual action, and so the endeavor to capture the governorship by a coup d'etat failed. Morgan G. Bulkeley is governor and will be until the legal and constitutional requirements for appointing his successor have been complied with.

The Bridgeport Standard says:

Last night's Hartford Times (dem.) savs One thing is certain, the democrats know that their candidates are constitutionally elected. They will not give up that point nor abandon it.

WILL MAKE SOME CHANGES. The West Haven Hailroad Company For Ten Minute Runs On That Road-The People of That Section

Much Gratified. Much interest is felt in ction of the city over the present attitude of the West Haven Horse railroad ompany with its Sylvan avenue branch. That the company is on the eve of making some important changes is indicated strongly by a sort of much current opinion existing within the management. Another event of interest is the recent resignation of Superintendent W. W. Ward. Mr. Ward has very ably managed the road for many years and been strenuous in his views of road management. It is understood the company will make every effort to influence him to withdraw his resignation. But it is considered doubtful if they succeed, as Mr. Ward has other im-portant business interests which claim a share of his attention and time. It was this reason that prompted him in his

resignation.

By early spring some of the changes will undoubtedly have been made. Electricity will as soon as it is practicable, be used as a motive power on the WestHaven road. This power is recognized as the most serviceable on roads where there are long distances with few stops to be made, and this is just what is the characteristic of the West Haven road with its long stratch. he West Haven road with its long stretches through territory but sparsely settled.
With a rapid transit the ride down to
Savin Rock on a summer afternoon or vening would not be the discouraging ef-ort it is at present.

Those living on and in the vicinity of

the Sylvan avenue road will be much pleased to learn that their road is to have its share in the way of inprovements.

Much was due to the energetic efforts of Alderman Lowe and a few others that the Alderman Lowe and a few others that the company last summer reduced the schedule of running time from twenty to fifteen minute trips. This without doubt is one way to account for the very heavy vote that Mr. Lowe polled at the last election in a naturally democratic ward. This change was received with much satisfaction, and the residents my in the locality of the comthe residents up in the locality of the cemetery feel that they were not quite so far away from the world at large. Efforts are now being made for a further reduction to ten minutes schedule, and this would, indeed, if successful, be most gratifying to those who patronize the road. Without doubt the venture would

be a paying one for the company. When they made their reduction to the fifteen minute runs their receipts were increased fully a third, and by those the know at out he case it is estimated that the further re duction would meet with the same succ The convenience which would be gained goes without argument.

The people living along the line are one who liberally patronize a road, and the will be most hearty in their support of ef-forts of this character. Alderman Lowe said yesterkay that the changes were no only talked of, but likely to occur. The company will buy two or three new cars and the one lonely conductor who now performs the entire duty in that department, taking his car up from the green as far as the turnout on Howard avenue and returning on the car down, leav-ing the driver alone with the other one up

to the cemetery and back, will have two other conductors to keep him company. With these additions the frequent trips the road warrants the attempt.

For a number of months Superintendent Smith of the fire alarm telegraph has been greatly perplexed with the antics of the electrical apparatus which give out unexpected blows on the city hall bell at various intervals. James Grant, one of the linemen of the department, it was thought, had made the long undiscovered secret of the trouble and for sometime it did not occur. But "Jimmy" must dream did not occur. But "Jimmy" must dream again and see if the trouble cannot be obviated. It is thought the trouble is caused by a broken wire which is covered by such strong insulating material as to not reveal itself. This trouble is generally found in a wire running into or near a fire alarm box where the wire is insulated and it is a most difficult matter to locate it as the insulation is an extent that it, as the insulation is so strong that a tremendous pull on the wire would not disclose the location of the break. He is in favor of rapid transit and progressive in his rices of read waves of read wav talking by her splendid work in the "Messiah" at the Metropolitan opera house. She is a great artist and of the class of singers of whom Mr. Cari Dufft and Mr. Charles Herbert Clarke are well known in New York as artistic singers of great merit, Mr. Dufft's superb baritone being in great demand. Mr. Clarke is the tenor of the Broadway Tabernacle church and is eminently fitted for oratorio work. His voice is a pure, sweet tenor of lovely quality and finish. Of Mr. Myron W. Whitney it is unnecessary to speak; his name is a household word. He has lost none of his fire and his great voice was never heard to better advantage than at the recent annual performance of the known in New York as artistic singers of the recent annual performance of the "Messiah" by the Handel and Haydn society in Boston. At the close of his great aria, "For the Trumpet Shall Sound," the audience rose en masse and gave him a

One hundred singers, com-prising the Gouned society and forty of the leading church choir singers in the city and vicinity, were present. The ranks are nearly complete, but it is probable that a few more voices will be added.

ual Meeting of the Firemen Benevolent Association. About thirty members of the Firemen's enevolent association attended the annual neeting which was held last night in the ire commissioners' chamber at city hall. Chief Hendrick, president of the associa on, opened the meeting with a short address, in which he congratulated the mem-bers for the good work done during the year, and Secretary Henry Tuttle read his

innual report, which gave several instance of aid that was afforded needy firemen by

he association. Treasurer John A. Richardson in his r Treasurer John A. Richardson in his report stated that the association was upon a good financial footing, but that much more good could be done with increased funds for the needy and disabled members of the department. Most of the funds which have been received during the year came from generous donations from business men whose stores, shops or buildings had been saved from destruction through the faithful work of the department.

ntries Received by the Secretary-The third exhibition of the New Haven oultry association will open at Music hall on Church street next Thursday morning and will close on Monday evening, January 19. Nearly every mail brings entries to the secretary, Mr. E. A. Todd, who is already very busy with the duties pertaining to the office. Nearly 1,000 premium lists with entry blanks have been mailed to poultry breeders, many of whom have made entries on the blanks, which they have forwarded to the secretary. As fast as the entries arrive Mr. Todd mails to the o be placed on the coop during the exh The entries that have been received are

The entries that have been received are mostly from out of the city, as very few of the local exhibitors make entries until the last few days that they are to be accepted. The entries close-January 12.

There has been an extensive call for the premium list, applications for them hav-ing been received from all parts of New England and several of the western states. The secretary has predicted that the ex-hibition will be an unusually large one. A Timely Discovery.

A Timely Discovery.

A fraud which would have affected the interests of housekeepers generally, had it not been immediately discovered, was recently unearthed by the Electro-Silicon Co., of New York city, and resulted in the arrest and punishment of Benjamin Herzog, of that city, for "elling a counterfeit of their famous silver polish, Electro-Silicon. By the vigilance customary with this company in such cases, the disposition of the counterfeit goods has been stopped, thus preventing the perpetration of a gross fraud upon housekeepers by whom Electro-Silicon is extensively used, and effectively protecting the interests of

HE IS ALL RIGHT. Republicans Will Support Major

Todd for the Public Works Board.

When Commissioners Todd and Atwater of the board of public works went into the recent deal with the democratic commis sioners, States and Reilly, to depose Superintendent Kent of the street department and to re-appoint ex-Superintendent Doyle assistant, there was considerable grumbling in the republican camp. Commission er Todd had already been re-nominated by the republican caucus for a re-election, but several of the prominent party leaders had declared that he had forfeited all claim to the party's support by this transaction. It seems, however, that the republican politicians are beginning to look upon the course of Commissioner Todd with more favo of Commissioner Todd with more favor and that he will receive the entire party support when the aldermen meet on Mon-day night to elect commissioners for the various boards. Alderman Dailey was one meeting of the board of public works, but it is evident that this alderman has also decided to look more leniently upon the course of Commissioner Todd. Says Al-derman Dailey: "Considerable fault has been found with Mr. Atwater and Mr. Todd by their friends for going into the deal with two democrats, and to this action objection was made. Those gentle men answer, however, that they simply took advantage of an opportunity to go into a deal whereby they could get a share of the work for the colored men and others, and combined with Mr. Reilly and Mr. States so as to get for assistant super intendent Mr. Ives of the Fourth ward. In the agreement made was an understanding that a portion of the department work on the streets, parks, etc., should be given to republicans. This is their claim. That being so, I think there will be no trouble when it comes to the election on Monday night. I haven't any idea that any alder-

nen will bolt on that night." Mospital Sunday. The annual collection in aid of the New Haven hospital will be taken up in the churches to-morrow. Contributions will also be received by W. T. Bartlett, treasurer, at the Union Trust company, 807 Chapel street, corner of Orange street, and by J. H. Starkweather, at the hospital.

The above named specialist has indeed won for himself an enviable position and world-wide reputation for his remarkable success in the treatment of obscure and chronic diseases, he having no superior or even an approachable equal. Almost every day he is in receipt of letters telling held in the hearts of those who he has almost snatched from the grave. And now another is added to the long list of testi monials given him by reputable and well known citizens of this city. Mr. David Van Hise, whom everybody knows has been a great sufferer, for seven years, with a serious kidney and bladder trouble, while for the last two years he was obliged to uringte nearly every hour oftenwhile for the last two years he was obliged to urinate nearly every hour, oftentimes quantities of blood would pass, thus making him weak and debilitated.
Together with this he was troubled with rheumatism and dumb ague and symptoms of paralysis. He began treatment with Dr. Damon November 6. And ment with Dr. Damon November 6. And from the first he began to improve, until now he says he is quite well and hearty. Mr. Van Hise is greatly pleased with his rapid relief, and surely it is gratifying when we think of the many years he has been doctored by others without any re lief. He now says he cannot say enough in praise of the system that has brough him good health. Mr. Van Hise is a plain matter-of-fact person, who says just what luced to tell anything different from what t was.
